OVER TO YOU

By leaving us with written feedback you can have a real say in how our vision is taken forward, so please complete our questionnaire before you leave.

We will use your feedback to finalise our proposals before we submit a planning application to Birmingham City Council in Spring 2020.

You can also submit your views by getting in touch:

All feedback received will be reviewed by the project team and documented in a Statement of Community Involvement, which will form part of the planning application.
